Graduated as a Front-End Developer with an associate degree in applied science. Passionate about design, with strong technical and interpersonal skills for working in a team and successfully completing a project.

Education

Academic Qualifications.....

- **Madison College** **Graduated**
Associate Front-End Developer *May 2021*

Technical and Personal Skills

- **Programming Languages:** JavaScript-TypeScript, HTML, CSS, SQL
- **Industry Software Skills:** Angular, React, React Bootstrap, Git, GitHub, Amplify, IAM, S3, Route53, DynamoDB, Lambda, API Gateway, EC2
- **General Business Skills:** Agile development. Skilled in teamwork and creative thinking.

Previous Employment

- **Stagg Builders, Inc.** **Green Lake, WI**
Construction Site Operative *June 2008–June 2018*
Duties included measurement, layout, and preparation of job sites. I was also responsible for driving trucks, operating heavy machinery, finishing and sealing concrete, decorative design, and design implementation. It was also necessary to continuously coordinate with clients, contractors, and sub-contractors to keep a project running efficiently and effectively.
- **Tahoe Balloons** **South Lake Tahoe, CA**
Balloon/Boat Crewman *June 2013–November 2015*
I worked on a Coast Guard certified barge that is a one-of-a-kind nautical hot air balloon launching vessel on Lake Tahoe. We were well trained in water rescue drills and safe boat operation. Other duties included safe transfer of propane tanks, close inspection of operations and safety equipment, directing the captain and channel boat traffic, balloon inflation, balloon take down, and guest relations.

Activities and Interests

- I enjoy snowmobiling, snowboarding, fishing, and camping. Other interests include golf and music. I play guitar, keyboard, and harmonica, in all of which I am self-taught.
